

Company Profile

Arraycom (India) Limited is a well-established, financially sound Public Limited Engineering Company with over 30 years of experience. We employ a team of over 70 qualified personnel, the majority of whom are experienced engineers.

We have successfully executed numerous SITC (Supply, Installation, Testing, and Commissioning) projects for Prasar Bharati, a leading Government organization. Additionally, we serve customers in the automotive and electronic industries through our manufacturing division specializing in Thick Film Materials. Our commitment extends to addressing the nation's energy needs by producing green and renewable energy through our Solar Power division. Furthermore, our PCB division caters to the diverse needs of various industries.

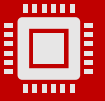

Our Services

System Integration

We integrate diverse subsystems using various technologies to ensure seamless functionality as a complete system in Professional Electronics, covering Satellite Communications, Broadcast Engineering, Terrestrial Communication, Signals Intelligence, Surveillance, Networking, and Software Development.

Thick film Materials

We produce thick film materials, including Solar Paste, Conductive Paste (Ag | Pd | Pt Conductor), Membrane Ink, Resistor Paste, Overglaze Paste (Insulation Paste), and Precious Metal Powder. These are utilized in HMC, Telecom, automotive, military, aerospace, and consumer industries.

Solar Panel Installation

At Arraycom, we design, supply, install, and commission Grid-Tied, off-grid, and Hybrid Solar power plants for Residential, Commercial, and Industrial usage. We've installed over 5MW in residential rooftop solar in Gujarat under a government subsidy scheme

Printed Circuit Board

We specialize in manufacturing a variety of PCBs, from single-layer to double layer boards, adhering to the highest industry standards. Whether you're a startup or an established electronics manufacturer, we customize our solutions to meet your unique needs.

Infrastructure

Arraycom India Ltd is a technology Savvy Engineering Company with Strong Research & Development Team having Well Trained & Experienced Professional for Speedy & Efficient Execution Capability.

Arraycom India Ltd is an ISO 9001:2015 Certified company that has successfully completed over 1000+ projects. We specialize in system integration within the field of Professional Electronics, covering Satellite Communications, Terrestrial Communication, Broadcast Engineering, Signals Intelligence, Surveillance, etc.

We are approved and registered Solar Company with MNRE & GEDA as category A

channel partner & started our activity by installing 40 KW Solar power projects on the roof top of our HO/Factory at Gandhinagar. This plant is generating 160-220 units (KWH) per day.

The Quality Management System at Arraycom adheres to ISO 9001:2015 standard certified by DNV. Our Thick Film Material division specialises in manufacturing of hybrid micro circuits, resistors, capacitors, solar cells and semiconductor packaging. Our Products find applications in the Telecom, automotive, medical, military, aerospace and consumer industries.

Meet the Leadership

Arraycom (India) Ltd continues to thrive under the leadership of Mrs. Gorski Parekh, who serves as the Co-Founder, Chairperson, and Managing Director of the company. Recognized as the Best Entrepreneur by Nav-Gujarat Business Awards and the International Economic Development Council, Mrs. Parekh is actively involved in Education and Health Care Initiatives.

Holdings a Master of Arts in Social Work with a specialization in Family and Child Welfare from Tata Institute of Social Sciences (TISS), Mumbai, and a Diploma in Business Management, Mrs. Parekh is the founder of the ed-tech company Swayam Learning Private Limited. Additionally, she has played a key role in establishing prominent educational institutions like Ahmedabad International School (AIS) in Gujarat
